IAOM elects president for 2014-2105

Mon, 20 Jan 2014

Shari Green, RDH, COM, was elected president of the International Association of Orofacial Myology in a special election. Her term as President of the IAOM will continue until approximately late 2015.

Green, a native of Chicago, has been a member of the IAOM since the mid-1990s, and earned her IAOM certification in 1998. Once certified, Green has been in private in Long Grove, Ill. She has researched and written several *IJOM Journal* articles on thumbsucking behavior and oral habit elimination, and is an instructor on oral habits for IAOM.

In addition, Green has served on the IAOM Board of Examiners, and formerly on the IAOM BOD as Orofacial Myology Repres

The IAOM is the international professional association for orofacial myologists. IAOM provides information, resources, and support for professionals, families, and patients who seek information, guidance, research, and therapy services for orofacial myofunctional disorders. IAOM also provides educational services and certification for those individuals seeking extensive training and expertise in the field of orofacial myology. Additional information on the IAOM may be found at www.iaom.com.
